

Buildspace x McMaster

Where new ideas come to life.

What is Buildspace?

Buildspace is a start-up that runs a program called nights & weekends (n&w).

N&W is a **6-week** program where applicants can **develop their ideas** from home and update Buildspace with their progress every week.

We have topics to classify project ideas, however we are welcoming a wide variety of ideas.

What is our club?

Buildspace x **McMaster** is core of the n&w program adapted to a university setting.

Our program is run the same however works a little differently. We run once in the Fall Term and again in the Winter Term. The structure looks like this:

Week 1: Idea

Week 2: Toy Version

Week 3: Feedback

Week 4: Iterate + Feedback

Week 5: Users + Growth

Week 6: Demo Day + Final Presentation

After completing:

- **3/6** weekly updates, mentorship is available for those who have earned it.
- **4/6** weekly updates, students have graduated from the program.

What do we have thus far?

- We have **40+ members** who have already joined.
- An email list comprising of **1300+ faculty member's spanning every faculty**.
- The **partnership** with actual **Buildspace** company - tentative.
- Partnered with **MMRT and MDL**.
- Official **partnership with MES** - tentative.

What is coming up?

- The founder will be flying out to San Francisco, California where the Buildspace HQ is located to formally discuss partnership opportunities.
 - Dated: July 30th - August 6th
- The acceptance of our 6 Faculty Lead Positions.
 - Dated: August 1st

What are your goals?

1. Get students building fast, building publicly, and iterating.
2. Bright light to all of the unseen talent at McMaster.
3. Start an initiative that spreads to other universities.
